MAPEA

Michigan Association of Professors of Educational Administration

Format and Purpose

The Educational Leadership Symposium is designed to meet different needs of the participants. We want you to feel comfortably challenged.

Students who are finishing their Master's Degree and students who are just beginning their Doctoral studies will have an opportunity to share their intellectual interests and engage in guidance discussions with faculty members and advanced student scholars.

Participants who have formed arguments and written papers will have an opportunity to present and receive feedback.

Others may choose to attend and observe both the guidance discussions and presentations.

Michigan Association of Professors of Educational Administration (MAPEA)

- serves as a vehicle to generate and share ideas about programs, curricula, and teaching methodologies of educational administration,
- provides opportunities to learn about and contribute to contemporary issues and policy initiatives from a variety of resources, including but not limited to: colleagues, fellow institutions of higher education, local, state and federal agencies, business and community entities,
- promotes and advances the work and research of faculty members and students involved in the field of educational administration, and
- serves as the organization that assures that the educational administration professoriate has a voice in important decision-making that affects the work of faculty and students involved in educational administration.
